

### **I will fight AIDS Pledge**

I pledge to join hands with thousands of others to fight the spread of HIV and AIDS.

I understand that through our actions, we have the power to help those affected by HIV or AIDS infected and otherwise as well as prevent future infections.

I recognize that the keys to these goals lie in education of the facts of the disease, the issues at hand, and the methods with which to fight it.

In pledging this, I also promise do at least one of the following:

1. Raise awareness by telling my friends
2. Financially support a project that helps people who have HIV or AIDS, promotes education, or assists those whose family has been affected by HIV or AIDS.
